Book 1, Pages 93-100

**Description:** In 2007, the Missouri Partnership was formed with the intention of bringing new business and industry into the state. An appropriation is needed to be able to capture the net new taxes generated because of the redevelopment project and be diverted to pay the debt service on bonds issued to fund the project.

## Missouri Community College New Jobs Training Program - Section 7.135

Book 2, Page 42-49

**Description:** The Missouri Community College New Jobs Training Program is designed to help companies create new jobs by offsetting the high cost of start-ups or expansions. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. The program is administered by the community colleges in cooperation with the Department of Economic Development.

### Jobs Retention Training Program - Section 7.140

Book 2, Page 50-56

**Description:** The Jobs Retention Training Program offers an incentive for the retention of existing jobs by providing education and training to existing industries. The program targets companies with plans to move outside the state to find skilled labor by providing assistance for workers to increase their skill level. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. DED must have this appropriation authority to disseminate money to the trustees to retire the bonds.

The Division of Energy was notified of a competitive grant award of \$268,232 from the US Dept of Energy for development of a statewide technical reference manual (TRM) for energy efficiency. The division will work with a contractor to develop the TRM which will be a common reference document used to facilitate planning, implementation and evaluation of ratepayer funded energy efficiency programs. The MO TRM will be developed in coordination with MO energy utilities and program administrators, utility regulators, and collaborative stakeholders and build off of relevant information in other Midwest TRMs and using MO-specific energy efficiency program evaluation, measurement and verification data.
